

ASTRO CARGO VAN

1 9 8 6 C H E V Y T R U C K S

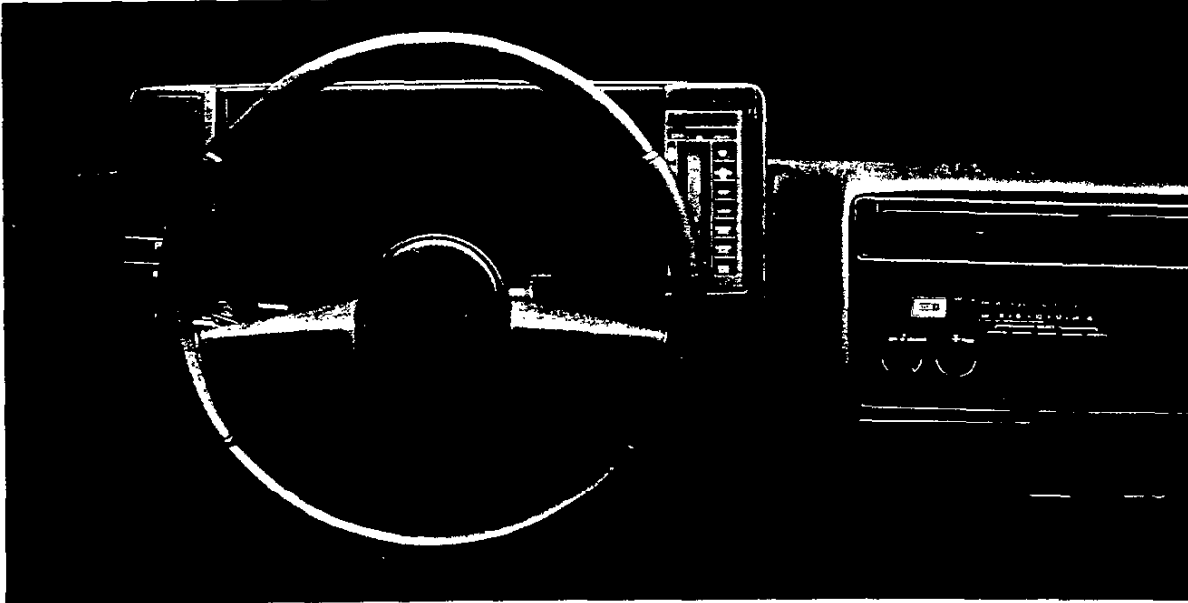

STANDARD VALUE FEATURES

ALL THIS AT NO EXTRA COST:

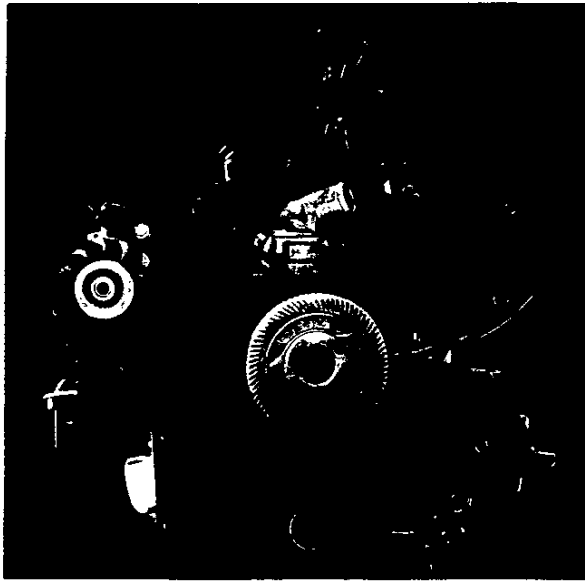

- Standard fuel-efficient 2.5 Liter L4 engine with Electronic Fuel Injection.
- 4-speed manual transmission standard.
- Hydraulic clutch for manual transmission is self-adjusting for reduced maintenance.
- 189.9-cu.-ft. load capacity—large cargo area.
- Rear panel doors. There's no liftgate to restrict roof loading; opens wide for easy loading or unloading.
- Flat, long 88.9" ribbed load floor.
- Rear step bumper aids in cargo loading and unloading.
- Handles 1,700 lbs. of net payload when properly equipped.
- Can tow up to 1,000 lbs. when properly equipped.
- Integral body-frame design allows easy serviceability as well as increasing sound isolation and smoothness of ride.
- 111" wheelbase, 77" wide exterior provides generous usable interior room.
- Computer-selected front coil springs for a smooth ride.
- Fully independent front suspension helps the wheels take the bumps separately.
- All-season, steel-belted radial tires for good traction, long tread life.
- Single-leaf, variable-rate rear springs adjust automatically to the load.
- Front fenders bolted on to facilitate repair.
- Front bumper made of high-strength alloy steel.

STANDARD VALUE FEATURES

- Contoured front-end appearance and flush-mounted windshields for a smooth, aerodynamic shape.
- Low drag coefficient—0.38—promotes fuel efficiency.
- Air dam spoiler reduces underbody air drag.
- Body welded through the latest robotics assembly technique to help assure weld accuracy and precision.
- Many components—like inner body panels—are single-piece stampings to maintain even fits and eliminate rattles.
- Seven-layer paint process for a lustrous finish.
- Ten exterior color choices available.
- Easy-to-operate sliding side door.
- Wet-arm windshield wiper/washer system for effective cleaning of glass.
- Full instrumentation cluster—easy to read.
- Fingertip controls—easy to reach.
- All-vinyl bucket seat.
- Map pockets in front doors.
- Roomy compartment in instrument panel plus beverage holder tray.
- LH color-keyed sunshade.
- Armrests, ashtray, coat hook and dome lamps for convenience.
- Color-keyed foam and cloth headliner for sound isolation.
- Heater/defroster.
- Inside hood release for added engine security.
- Extensive anti-corrosion measures such as two-sided galvanized steel in the front fenders, front-end panels, door outer panels and side panels. Plus Zincrometal,[®] zinc plating and hot-wax treatments.
- Lower-body anti-chip coating.

ENGINE VALUE FEATURES

The standard 2.5 Liter L4 gasoline engine incorporates the latest in high technology. New for 1986 are lighter-weight pistons for lower reciprocating forces and cooler operation. Also new 30-degree exhaust valve seat geometry for greater durability. Net horsepower: 92 @ 4,400 RPM. Net torque (lb.-ft.): 134 @ 2,800 RPM. Other advantages of the engine and its computer-controlled Electronic Fuel Injection (EFI) system are:

- It's simpler. It takes the complexity out of the engine compartment and places it in the Electronic Control Module (ECM).
- It's more responsive, especially during cold starts and warm-ups.
- It offers outstanding fuel economy.
- It is far less sensitive to the extremes of operating conditions and it is altitude compensated.

□ The simpler EFI system has proved to be easier to service. It eliminates the carburetor, choke, needle valve and float. The optional Vortec 4.3 Liter V6 gas engine has new Electronic Fuel Injection for 1986. EFI replaces the carburetor and contributes to increased performance and reliability. Net horsepower: 145 @ 4,000 RPM. Net torque (lb.-ft.): 225 @ 2,400 RPM. Advantages of this engine include:

- Improved mixing of fuel and air as a result of the swirl-port induction system.
- More complete fuel burning due to the centralized spark plug combustion chamber.
- Volumetric efficiency is the major result of the high 9.3 to 1 compression ratio. The high compression ratio is coupled with the Electronic Spark Control (ESC), which controls spark knock.

In addition to the above, the 4.3 Liter V6 basic features are:

- Copper core spark plugs help prevent plug fouling.
- Even firing results in smooth operation and allows a low idle speed.
- Stone-ground, micro-finished crankshaft.
- Tubular stainless steel exhaust manifolds.
- Low-tension oil rings for reduced friction.
- One-piece oil pan seal.
- Rocker arm covers fit into a recess in the cylinder head for better sealing.

A WORD ABOUT ENGINES

Chevrolet trucks are equipped with engines produced at facilities operated by GM car and truck groups, subsidiaries or affiliated companies worldwide.

CHASSIS VALUE FEATURES

TRANSMISSIONS

- Floor-mounted, fully synchronized, four-speed manual transmission with self-adjusting hydraulic clutch standard.
- 5-speed manual transmission with overdrive available.
- 4-speed automatic transmission with overdrive and column-mounted shift lever available.

FRONT

- Fully independent front suspension helps the wheels take the bumps independently.
- Computer-selected front coil springs for precision vehicle/load match.

REAR

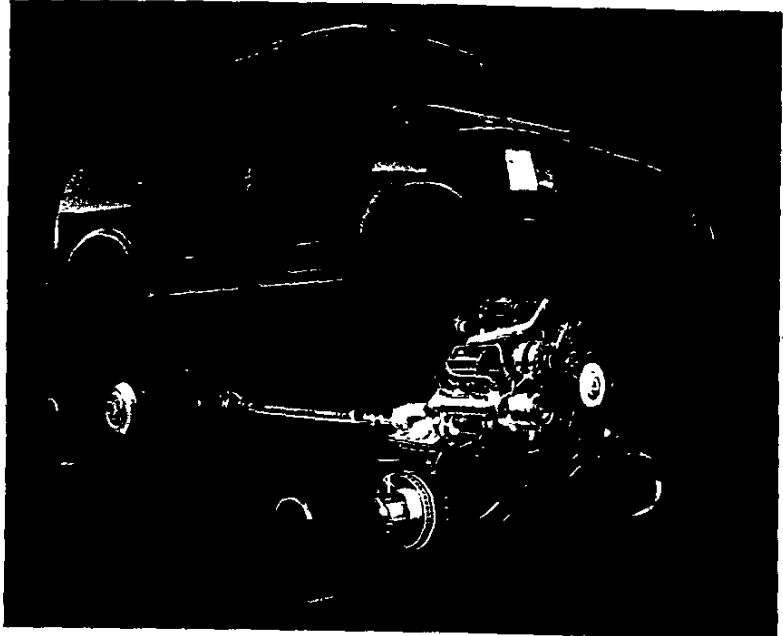

- Variable-rate monoleaf rear springs for a smooth ride, empty or loaded.*
- Rear drive for efficient weight distribution provides impressive towing capability (up to 5,000 lbs. when properly equipped) and increased traction when fully loaded.

BODY FRAME

- Integral body frame with box section front stub frame for easy servicing and engine removal from front of van. Fluid checks and fills are conveniently located under the hood.

BODY CONSTRUCTION

- Extensive robotics in assembly, paint and trim help provide a high-quality fit and finish to improve appearance, eliminate gaps and reduce the possibility of corrosion.

BRAKES

- Front disc brakes and finned drum rear brakes are incorporated into a complete braking system which is computer matched to the vehicle. Audible wear sensors warn of need to replace pads.

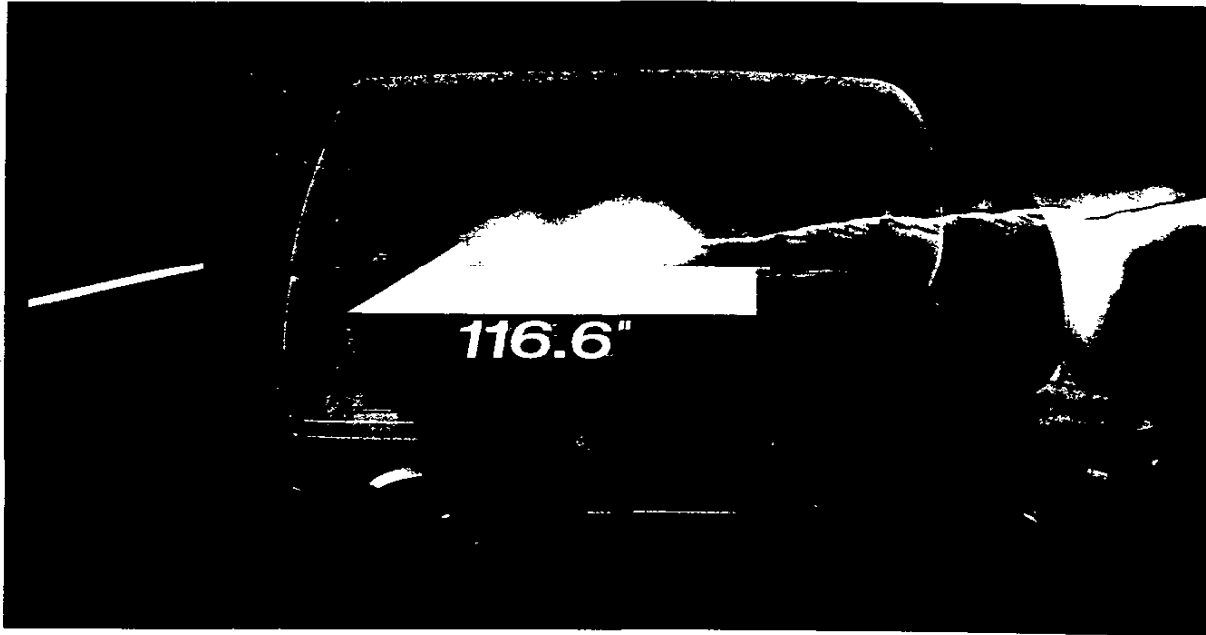

TIRES

- Four P195/75R-15 all-season, steel-belted radial ply tires for impressive traction and long tread life are standard. Spare tire is a compact type.

FUEL TANK

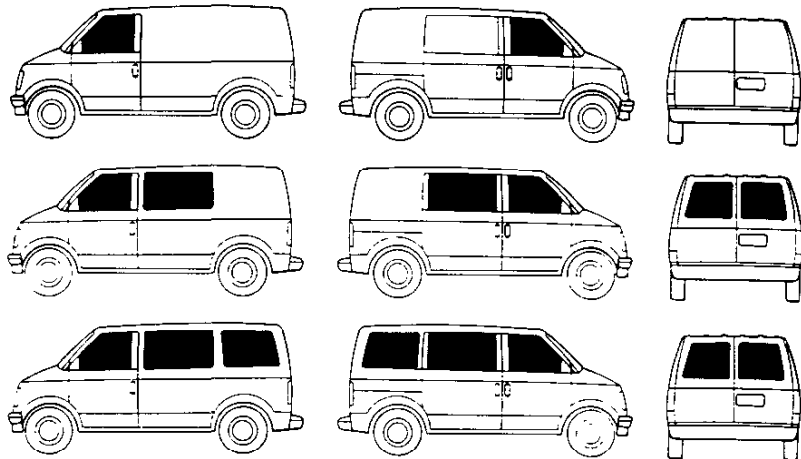

- Seventeen-gallon fuel tank is standard—27-gallon fuel tank available.

ADDITIONAL VALUE FEATURES

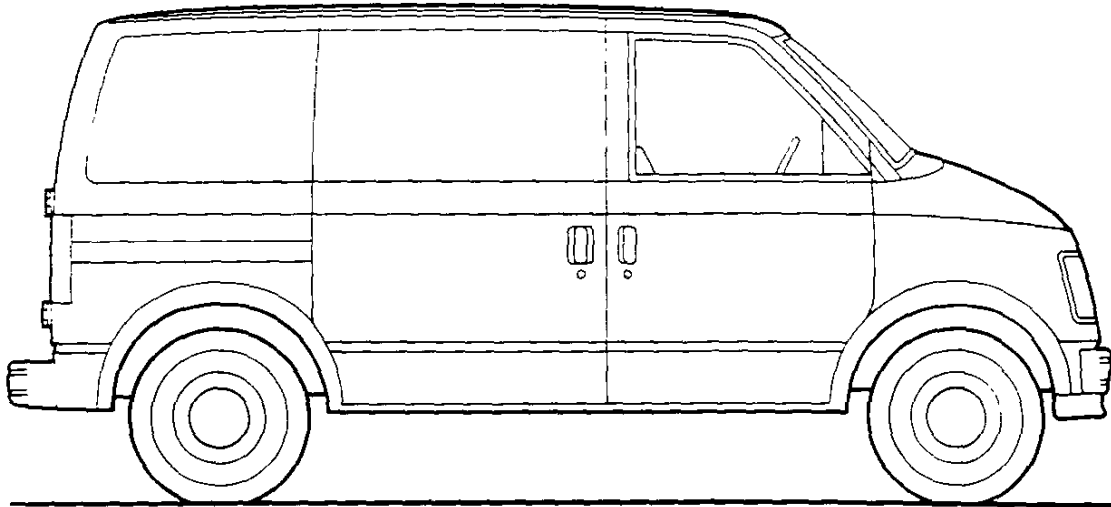

The Astro Cargo Van has 189.9 cu. ft. of cargo room, over four feet of width between the wheelhousings and over seven feet of cargo length. Although slightly over six feet in height, Astro has four feet of walk-through height inside. And Astro's swing-out rear panel doors open almost 180°.

The Astro Cargo Van offers five window options in addition to the standard window arrangement. Tinted or deep-tinted glass is also available.

ASTRO/SAFARI

(Cargo Van)

STANDARD MODEL—BODY ORDERING CODE—ZW9

The standard model includes the following items as standard equipment

EXTERIOR

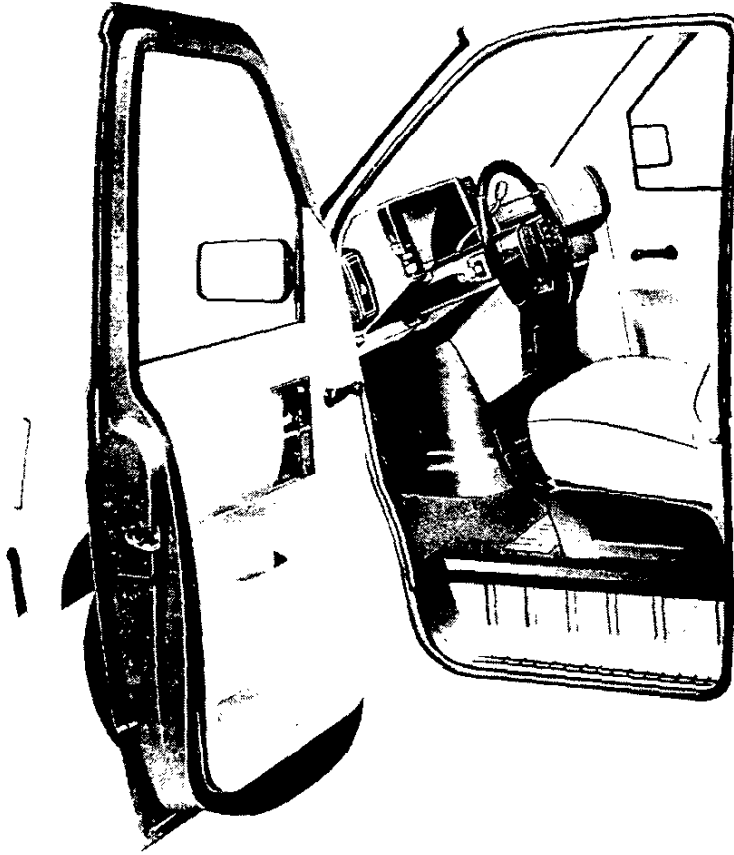

- **Bumpers:** Front and rear; painted lower body color
- **Colors:** See Interior and Exterior Color Selection Chart
- **Doors:** RH and LH front side doors; RH and LH rear load doors; and a RH sliding side load door
- **Door Opening and Locking Methods:**
 - Front side doors: Outside flush pull-out type door handle with separate key lock
 - Sliding side load door: Outside flush pull-out type handle releases both front and rear latches; for opening and closing of door from inside, reverse outside procedure
 - RH and LH rear doors: Flush pull-out type RH door handle opens door, and after opening RH door, LH door latch is released by inside handle; key lock cylinder in RH door
- **Glass:** Windshield; RH and LH front side door drop glass
- **Grille:** Molded plastic; painted black; integral Chevrolet emblem/GMC letters at center
- **Headlamps/Parking Lamps:** Headlamp/parking lamp bezels painted black
- **Horn:** Single, electric low-note
- **Hub Caps:** Bright metal with black trim
- **Keys:** Two-key system with separate keys for ignition switch and doors
- **Lights:**
 - Backup lamps: Two rear (integral with taillamps)
 - Combination parking/direction/hazard: Two front
 - Combination tail/stop/direction/hazard: Two rear
 - Headlamps: Two; Rectangular
 - License plate lamp: Single rear
 - Side marker lamps with reflectors: Integral with front parking lamps and rear taillamps
- **Mirrors:** RH and LH painted black; pivoting arm with adjustable 34.1 sq. in. head
- **Nameplates:** Bright "Astro/Safari" plate on front doors; bright "Chevrolet/GMC" letters on RH rear door in license plate housing
- **Tools:** Screw operated scissor-type jack with ratchet handle, extension and two wheel blocks
- **Undercoating:** Hot melt wax on entire underbody
- **Wheels:** Painted argent
- **Windshield Wipers and Washers:** Electric, 2-speed wipers with black finish on exposed metal portions; wet-arm design demand-type washer system

(Cargo Van)

STANDARD MODEL—BODY ORDERING CODE—ZW9

The standard model includes the following items as standard equipment

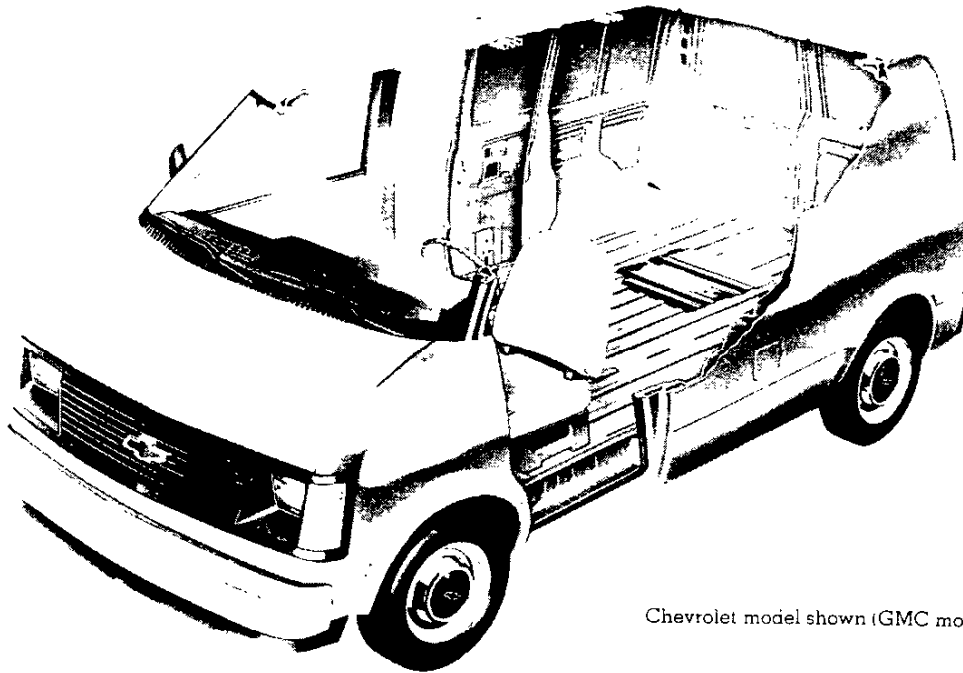

INTERIOR

- **Air Vents:** Integral with heater
- **Armrests:** LH and RH
- **Ashtray:** At center in engine cover console
- **Coat Hooks:** On LH roof rail to rear of driver's seat
- **Colors:**
Painted areas: Same as exterior primary color choice
Interior trim: Coordinated with seat trim color choice
- **Dome Lamps:** Two; with front door-actuated switches (dome lamps may also be activated by main light switch)
- **Door Locks:** Inside lock/release for front doors and sliding side door
- **Door Seals:** Latex foam rubber
- **Floor Covering:** Embossed black rubber mats on front floor area
- **Headliner:** Color-keyed molded styrofoam with foam and cloth cover; driver area
- **Heater and Defogger:** Deluxe-air
- **Hood Lock Release:** Handle located on RH side of instrument panel
- **Instruments:**
Gages: Speedometer, odometer, and fuel
Switches: Main, for control of exterior lights, instrument lights and dome lights; multi-function switch on steering column for direction signals by moving lever up or down (includes lane change position), headlight beams by pulling lever toward driver, windshield wiper by turning band marked "WIPER" toward or away from driver, and windshield washer by pushing in the lever knob; ignition with key-in warning buzzer; hazard warning; heater fan; door-operated dome lamp
- **Warning lights:** Generator, oil pressure, engine temperature, service-parking brake, direction/hazard signal, and high beam
- **Instrument Panel:** Molded black plastic faceplate
- **Insulation and Sound Deadening Material:** Dash (firewall), front floor panel, engine cover front extension and inside engine cover
- **Lights:** Instruments, front and rear dome
- **Seat:** Front low back bucket driver; adjustable; all-vinyl trim; foam padded. Also available at extra cost: Low back or high back driver and passenger seats in standard vinyl, Custom vinyl or Custom Cloth. See Interior and Exterior Color Selection Chart for color and trim availability
- **Seat Belt:** Color-keyed with pushbutton release and outboard retractor
- **Spare Tire Carrier:** LH rear side
- **Steering Wheel and Column:** 15.24" diameter black vinyl wheel; black energy-absorbing steering column with anti-theft locking feature
- **Storage Box:** In front face of engine cover extension; with latched door; includes beverage holder provisions
- **Sunshade:** LH, color-keyed
- **Trim Panels:** Injection molded plastic panels on front and sliding side doors; with storage pockets on front side doors

ASTRO/SAFARI

(CARGO VAN)

BODY CONSTRUCTION FEATURES

Chevrolet model shown (GMC model available)

BODY CONSTRUCTION FEATURES

- Computer-aided design.
- All-steel construction (except cowl panel).
- Body-frame integral construction for outstanding structural rigidity and excellent durability.
- Comprised of underbody structure, front end structure, left- and right-hand side panel structures and a roof panel structure.
- Longitudinal side rails, cross sills and outriggers form the integral frame to which front and rear floor panels are welded, completing the underbody structure. Main structural members are of heavy-gage steel. A step well is incorporated in the underbody in the area adjacent to the front doors and sliding side door to provide convenient entry and exit.
- Floor panel provides for available underfloor spare tire carrier.

FRONT END STRUCTURE

- Engine compartment with inside opening hood panel allows quick access to service points such as engine, radiator, brake system, battery and windshield washer reservoir.
- The radiator support upper tie bar is mechanically attached to facilitate engine removal.
- A plenum chamber with high-level air intake is utilized in the front end structure to assure a plentiful supply of dry, outside air for interior heating and ventilating as well as to add rigidity to the overall body structure. Air outlets to the interior are provided on the left-hand and right-hand sides by manually controlled doors (RH door omitted with optional air conditioning).
- Bolt-on front fenders for ease of serviceability.

SIDE PANEL STRUCTURES

- Seamless, one-piece outer panels reinforced with one-piece inner panel construction.
- Roof is welded to side panels.
- Inner side panels are welded to floor panel at bottom, leaving no exterior exposed welds.
- Many window configurations available.
- Front quarter and side door glass available on cargo model, standard on passenger van model.
- Optional rear quarter glass is fixed.
- All window openings are of one-piece stamped construction for excellent fit and corrosion resistance.
- Provision is made at the center of LH side panel for fuel filler door. Inside remote operation of door is available as an option.
- RH side panel incorporates center track for sliding door, providing low operating effort.
- Flush-mounted side glass.

ROOF PANELS

- One-piece design.
- Four longitudinal stiffening ribs.
- Welded to side panels.
- Eliminates exposed drip gutters.
- Center rear surface of panel is free of stiffening ribs to allow roof vent installation.
- Four roof bows support the roof panel.

ADDITIONAL BODY FEATURES

- Completely automated assembly features extensive use of automatic and robotic equipment to weld and assemble body.
- All body openings, front door frames, window frames, windshield frame, rear door frame and side door frame are of one-piece construction for precise fits and excellent corrosion resistance.
- Concealed front door hinges.
- Concealed hood hinges.
- Flush-mounted glass (except front doors).
- Improved body seals (weatherstrips) body mounted at front and side doors.
- On-line water test to eliminate leaks.

Special attention is given to corrosion prevention during the construction and final finishing of the body. The following body design features occur during the construction of the body:

- Use of special steel (galvanized, zinc iron alloy, zinc coated) for body components especially subject to corrosion.
- All exterior body panels (except roof) are two-side galvanized.
- Use of one-piece outer panels, eliminating exterior joints where corrosion might occur.
- Use of heavy-gage steel for main underbody components.
- One-piece opening frame construction eliminates lap joints and other potential corrosion areas.
- No exposed welds.

After body construction is completed, additional corrosion prevention steps are taken in the final finishing operation.

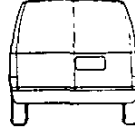

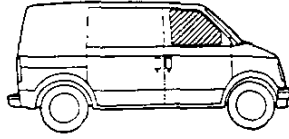

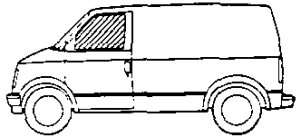

- The body, doors and hood are thoroughly cleaned through a 7-stage phosphate wash (4 immersion stages, 3 wash stages).
- Next, body, doors and hood are primed by the uni prime process.
- Sealers are applied to all critical interior/exterior joints.
- The body, doors and hood are painted with base coat/clear coat enamel.
- An anti-chip coating along the lower body sides is added which extends from the rear of the front wheel openings to the rear door openings to prevent stone chipping.
- Hot-wax spray is applied to entire underbody for sound deadening and corrosion resistance.

SOLID AND TWO-TONE* EXTERIOR COLOR COMBINATIONS

The application of paint for solid and two-tone exterior color combinations is shown below

SOLID COLOR

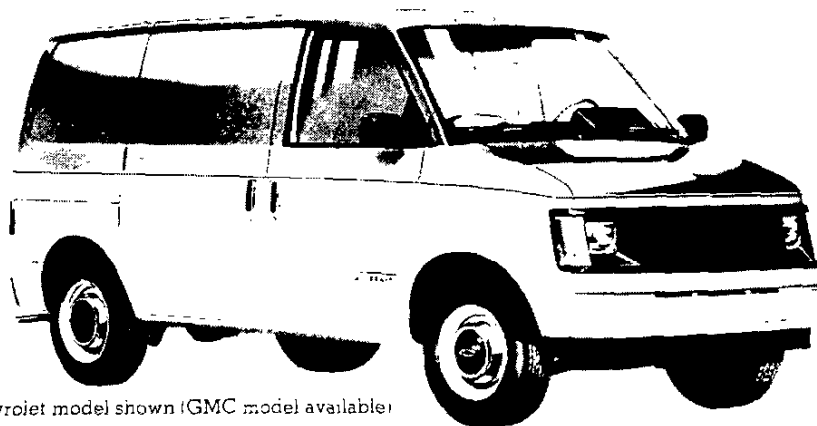

Solid paint (ZY1) is standard on all models. All painted areas of the body and front end sheet metal, including the bumpers, are the same color.

Chevrolet model shown (GMC model available)

SPECIAL TWO-TONE

Special two-tone paint (ZY3), is available on all models and includes a dual color decal stripe located at the belt styling crease line. The areas above the decal are painted color code 1. The areas below the decal, including the bumpers, are painted color code 2.

Chevrolet model shown (GMC model available)

SPORT TWO-TONE

Sport two-tone paint (ZY7), which provides a lower accent two-tone scheme, is available on all models. Color code 1 is applied to the areas above the lower styling crease line and color code 2 is applied to the areas below, including the bumpers and fender flares.

GMC model shown (Chevrolet model available)

*Optional at extra cost

NOTES
